

# Ruby Mine

A prestigious fully permitted California gold mine, offering a fast track to production projected at 10,000 ounces of gold per year.

- 1,700 acre mine and land position.
- Turn-key status with current permits, active reclamation bonds, and extensive infrastructure—including onsite placer and quartz processing mills.
- Over 3 miles of un-mined gold bearing gravel channels, with past production estimated at over 200,000 ounces.
- Located in Sierra County, CA with excellent access; a paved, county-maintained road to the property; located within 2 ½ hours of the Sacramento International Airport.
- Newly developed mining plan projects a total capital expenditure of \$1.4 million to fund an operation to profitable production in year 2 and to the target production rate of 10,000 oz/year in year 4.

Sierra County, California
